

# **AFSMK:** Connecting Danish Art and the World of Art

In our rapidly changing world, SMK believes that the art museum plays an important role in helping to build a more creative and reflective society. SMK aspires to develop a 21st century museum which is a gathering place where people of all ages, nationalities and walks of life come to learn from one another and explore together using art as the medium through which we can all connect. The generous and open minded members of AFSMK are essential to making this vision a reality. AFSMK is a public charity (501c3) established to strengthen the ties between Statens Museum for Kunst and the Gallery's American friends and audiences with chapters in New York and Copenhagen.

AFSMK Patrons' contributions support the contemporary exhibition programme that provides a platform for emerging Danish artists, the ground breaking work of SMK's conservation centre which is making important contributions to our global understanding of art history and the engaging events that draw people together and create new audiences for SMK. Whilst State funding enables us to maintain 700 years of the Royal Collection of Art, it is the support of people like our AFSMK members that enables us to deliver the activities that bring the museum to life.

AFSMK members are passionate about art and are important ambassadors for SMK. We wish to provide you with exclusive opportunities to dig deeper into the folds of the museum to develop your own learning with like-minded people and become a part of the SMK family through a series of special activities and events held in Copenhagen and New York each year.

I hope you will consider joining AFSMK and help to connect Danish Art and the World of Art today!

## **MIKKEL BOGH**
